## Thoughts From the Library Desk

Pictured above, checking out books from the main desk at the Library, are Robert Skaith, center, and Marsha Edwards, right. They are being assisted by Mrs. Hubert Garrett who is in charge of the desk.

## Library Begins 17th Year Of Service with Fall Term

By Anna Catherine Roberts

With the coming of the fall semester, 1955, the College library will begin its seventeenth year of service to the campus community. According to the files of the Northwest Missourian, the library building was constructed during the 1938-39 school year and was first opened to students in the fall of 1939.

The Library is a very important part of the college as it has been planned to supplement the student's classroom learning.

Forty-five thousand volumes, including government publications, may be found in the Library. More than two hundred and fifty magazines are subscribed to, and a great many of these are later bound for permanency.

The Reserve Book Reading Room, supervised by Mrs. Barbara Steele, contains books for limited use by a large number of students. These books may be checked out for an hour at a time, but they may also be taken out for overnight use at an hour before closing time.

The Instructional Materials Bureau, supervised by Dr. R. E. DuBey, contains material on education for teachers and students, and it is the center for audio-visual materials on the campus. At the present time, several new films are available for preview.

In the Reading Room, reference books, pamphlets, and magazine indexes are located. However, only the pamphlets may be checked out.

The demands for recreational reading material have not been slighted. The Browsing Room, supervised by Mrs. Kay Dolph, contains books, current magazines, and papers for recreational reading.

The Library also has a picture collection of nearly one hundred and fifty reproductions of art masterpieces. These have been processed and framed, and may be checked out by students or members of the faculty for use on campus. The pictures in the halls of the Administration building and the Library are included in this collection.

The staff members at the Library are very busy, but they are always glad to assist students in anyway possible. However, they have more time in which to help students in the morning than in either the afternoon or evening.

### Audrey Shauer Will Speak To Classroom Teachers

According to Everett Brown, field service director, the speaker for the Classroom Teachers' Professional Day, Friday, July 22, will be Audrey N. Shauer, N. E. A. Director for Indiana, Valparaiso, Indiana.

## Summer Term's End Finds 98 Seniors Seeking Degrees

Ninety-eight seniors have presented their applications for degrees to be given by the College at the summer session commencement on August 1.

Mr. Charles W. Lafferty, superintendent of schools at Atchison, Kansas, will deliver the commencement address entitled "Education for Peaceful Revolution." Mr. Lafferty has received both his bachelor's and master's degrees from Kansas State Teachers College at Pittsburg, Kansas.

Summer Commencement exercises will be held at 8:00 p. m., August 1, in Memorial Stadium. In case of adverse weather, the program will be held inside in the auditorium.

Other activities for summer commencement week are the senior breakfast which will be held in the Union dining room at eight o'clock Monday morning; commencement practice immediately following the breakfast; and the president's reception for the seniors to be held in the College Residence from 3:00 until 4:30 o'clock Monday afternoon.

On July 7 the seniors held a brief meeting in the College auditorium during which they discussed commencement activities and elected officers who will act for the class in planning the details of commencement week. The officers elected are Charles Vinzant, president; Glenn Wehrkamp, vice president; and Mary Sweat, secretary-treasurer.

### Final Seminar!

The final seminar for student teachers this summer will be held in Horace Mann auditorium on Friday, July 15th, at 3:30 p. m., according to Dr. Leon Miller, chairman of the Division of Education.

Dr. Miller will give a critique of the evaluations of student teaching experiences turned in earlier by all student teachers.

Tonight

## 'Viva Zapata'

Tonight's movie to be presented by the summer social committee in the Bearcats' Den is entitled "Viva Zapata."

According to facts released by Miss Lois Simons, chairman of the committee, the film, as its name implies, is an historic drama of Old Mexico and its influence in the development of the West.

Academy award winning Marlon Brando is shown in one of his earlier roles, and is supported by Jean Peters and Anthony Quinn.

A film short subject will precede the feature. The lights will go out at seven o'clock; the charge for the evening's entertainment will be twenty-five cents.

## College Park Is Now 49 Years Old

Just forty-nine years ago this summer, the park which is now called College Park became part of the College campus. On July 4, 1906, the first all-school picnic of the Fifth District Normal, now Northwest Missouri State College, was held there.

The park, then referred to as Maple Grove park, had been purchased for the state normal school by its board of regents from the Prather estate in June, just a few days after the opening of the school on June 13. The board, headed by C. J. Colden, saw the potentialities of the park and bought it even while feeling was running high over the question of how money contributed as an inducement to bring the school to Nodaway county might be spent.

The park has been used variously since. It was used as chautauqua grounds during the years when chautauquas were at their height, and it was then called Chautauqua park. Money was raised one year to buy tents and make it a tent-city in which students "might live out of doors and attend school." Cottages were built in it and the cottages rented to students, married or with chaperones. Tourist accommodations were added and the city referred to it as Tourist park. It is now a beauty spot on the campus, has two dwelling houses which the college rents, and is a popular picnic place. It has lived up to the visions of the first board of regents.

The latest picnic to be held in College Park will be the annual all-school summer picnic on Thursday, July 14.

## New Parking Lot Is Open for Use

Because of extremely crowded conditions in existing lots, the College has constructed a new parking lot just west of the bus barns and north of the greenhouse.

According to Dr. J. W. Jones, president of the college, the new lot is now ready for use. It is quite close to the Administration building and should prove quite convenient to commuting students.

President Jones says that all students and faculty members are expected to use the parking lots and to refrain from parking on lawns, grassy spots, and along the side of the road.

The new lot, which will hold 80 to 100 automobiles is covered with crushed rock and, according to Bill Summa and Carl Leffingwell who set them, is bounded by sixty-one posts. The entrance to the lot is just south of the bridge over the Wabash Railroad tracks.

The addition of the parking lot brings to a total of four the number of such lots available for use in the immediate vicinity of the Administration building. These should provide ample parking area for everyone!

## "Fun for All from 7 to 70" Is Theme for School Picnic

### Plenty of Food, Contests, and Dancing Is Promised by Summer Social Committee

Plenty of good food and drink, new mixer games, and energetic dancing are promised to NWMSC summer students by the social committee as the annual all-school summer picnic gets under way tomorrow night.

Beginning at 5:30 p. m., students and faculty members will converge on College Park for a lunch prepared by the Union cafeteria staff.

Following the lunch everyone will proceed to the tennis courts for mixers, games, and dancing.

## Graduate Students To Hear Coleman

"What I Expect in the Master Teacher" is the subject of a talk to be given by Mr. Max Coleman, assistant superintendent of schools in St. Joseph, at the Graduate Student-Faculty coffee hour in the Union building at 10:30 a. m. today.

Mr. Coleman received his A. B. degree from Park College and his A. M. degree from the University of Missouri, and he has done additional graduate work at the Universities of Iowa, Arizona, and Kansas City.

Mr. Coleman

Since 1936, Mr. Coleman has been with the St. Joseph School System and has served various schools in that system each year with the exception of three and one-half years' duty in the navy during World War II. He received his appointment to his present position as Assistant Superintendent in charge of Instruction in 1952.

This coffee hour is the third in a series of meetings held on alternate Wednesdays which is designed to allow the students and faculty members of the Graduate Division to discuss problems together and to become better acquainted with one another.

The feature game of the evening, according to Mr. Everett Brown, chairman of the recreation committee, will be a mixer called "Mr. X." One faculty member will be named as "Mr. X," and the first person to introduce himself to this mystery man will receive a grand prize. Mr. Brown describes this prize as "nothing less than a new automobile."

Square dancing to live music will be another feature of the evening's entertainment. No band has yet been obtained, but Mr. Brown believes that one will be available.

Other members of the recreation committee are Dr. C. E. Koerbie and Mr. Robert Foster.

Mrs. Ruth Burke, dietician at the Union cafeteria, has announced the following menu: Franks in buns with mustard or catsup, potato salad, sweet pickles, raw carrot strips, ripe tomato wedges, chocolate cake, and iced tea or punch.

Students who regularly eat at the Union cafeteria will be admitted to the picnic free of charge, but faculty members, students who do not eat at the Union and their families must purchase tickets for the event at the business office. These tickets cost 50 cents and should have been purchased by 4:30 p. m., Tuesday.

In announcing the picnic Miss Lois Simons, chairman of the summer social committee said, "Fun guaranteed for everyone, 7 to 70! for students, faculty, and families."

### Notice

Teachers who wish to take out correspondence courses at the close of the summer session should make application in Mr. Brown's office, Room 208, during the week beginning July 18 so that books may be issued to the correspondence students before summer school students turn in their books.

Everett W. Brown  
Director of Field Service

## Many Foreign Countries Offer Teaching Positions This Year

Opportunities for 300 American teachers to teach in other countries during the 1956-57 academic year have been announced recently by the Department of State, the Board of Foreign Scholarships, and the Office of Education—U. S. Department of Health, Education and Welfare.

The positions available to United States teachers may be arranged on an interchange basis or as a one-way teaching assignment to another country. This program to help promote international understanding through education, is authorized by the Fulbright and the Smith-Mundt Acts.

Countries that offer opportunities for teacher interchange with American teachers are Australia, Austria, Belgium-Luxembourg, Canada, Germany, the Netherlands, New Zealand, Norway, and the United Kingdom.

One-way teaching assignments for United States teachers are offered by Austria, Burma, Denmark, Finland, Germany, Greece,

Indonesia, Italy, Iraq, Japan, Morocco, the Netherlands, Syria, Thailand, and the United Kingdom Colonial Areas in the West Indies and Africa.

A knowledge of foreign language is a requirement for teachers going to Austria, Germany, Belgium, and Italy.

There are opportunities also for teachers of French to study in a special summer seminar in France, and for teachers of the classics to study in a summer seminar in Italy.

Applications for foreign country teaching assignments, either exchange or one-way, (Continued on Page Two)

## The Biting Monsters . . .

By Roy Rinehart

Those who consider themselves the outdoor type have come in contact, one time or another, with a minute member of the arthropoda group commonly called the chigger. He belongs to the class Acarina, a class of arthropods, separate from the Insecta because he has four instead of three pairs of legs and lacks the separate thoracic region of true insects.

Chiggers, as we know them in this area, are actually the larvae of the harvest mite. The adult mites feed on green vegetation, later laying their eggs on leaves where they hatch out into small larvae which will attach themselves to any vertebrate, including man, that happens to brush against them.

They are seldom seen but the numerous sites of their attachment are apparent through both sight and feeling after one has played the part of an outdoor sportsman.

Thanks to the field of science, it is now possible for one to protect himself from these blood thirsty creatures.

A good repellent to keep them from sampling your blood supply is dimethyl phthalate. If it's too late for a repellent, they may be exterminated by using iodine or tincture of benzyl benzoate. Those planning to attend the all school picnic might come prepared to ward off these pint-size, man-eating monsters or make sure the iodine bottle is handy for a prompt counter attack.

To rid your favorite picnic area of these friendly pests, you can spray or dust the area with chlordane or benzene hexachloride applied at the rate of two to four pounds per acre. This will keep infested areas virtually free of the mites for two months or longer.

## The Stroller . . .

Greetings and salutations, all ye merry gentlemen (and ladies, too, of course)! The Stroller is back again to bring you all the dope about no one in particular and every one in general.

The fourth of July is here and gone, and the summer session is now on the downhill slope. Barring any unforeseen accidents three weeks from this date will see all of the NWMSU students, including yours truly, enjoying a brief respite from the toils of schoolwork. The Stroller can't think of anything more appealing.

The Stroller's hat goes off this week to one Ted Edward Reed, who last week wrote a most excellent editorial on the lost art of chivalry. While strolling about the campus, the Stroller has heard many favorable remarks about "Sir Ted's" dissertation.

Last Thursday's square dance at the college tennis courts was another big success. It just goes to show that good old-fashioned folk dancing still has much appeal in spite of all these new-fangled mambos, one o'clock jumps, etc.

The all-school picnic looks as though it might be a bang-up affair. The Stroller thinks he knows who "Mr. X" is; so everyone else will have to be on his toes to beat him out for the grand prize. The Stroller is also looking forward to dancing to that live square dance music.

Speaking of picnics, the one coming up should present a fine opportunity for the boys to show off those shorts they've been sporting in classes these past weeks. In this issue of the Northwest Missourian is an article which gives the rules for women's attire on the campus. There are no rules governing the boys, but perhaps they should be a little more conservative while attending college classes.

Well, that's one kind of shorts—here's another. Karen Gardner and Barbara Staley have both become engaged recently. Best wishes to you from the Stroller.

With all the planning going on for the golden anniversary the Stroller now ventures to make one little suggestion. That is to repair and put into operation the lights on the columns at each end of Memorial Drive. These were placed as a memorial to those who died in World War I. They really are quite impressive and could add much to the attractiveness of the campus if they were brought out of their bad state of repair.

Well, that's enough editorializing for this week—back to the news.

Tonight's movie, "Viva Zapata" is a show to see for the Stroller's money. She saw it some time ago and thinks it's good enough to see again.

This week's final snoop is really quite interesting. It seems that the article on chiggers in this issue was inspired by their merciless attack on one of the faculty members. This person's name is withheld on the grounds that its release might incriminate the writer.

## Read 'n Digest . . .

Every woman on this campus should wear the attire which is considered proper. According to Read and Digest, a booklet on social etiquette and dormitory rules for girls at NWMSU, shorts, slacks, jeans, or pedal pushers are not considered appropriate in the classroom, library, or administration building. They are in order only when one is going to or returning from a game which requires them. Shorts should not be worn to town.

## Citrullus vulgaris

### Causes Confusion

By Maurice Sullivan

"What would you do if you were suddenly given a Citrullus vulgaris which was two feet long?" This question was asked of twelve students one hot day last week. The students, who hadn't been informed that Citrullus vulgaris is the biological name of the watermelon, gave the following answers:

Ralph Bayles: "I'd plant it."

Emma Yurkovich: "I'd hang it on the line to dry."

Bill Schultz: "Bury it."

Peggy Andrews: "I would give it to an insect collector."

Clifford Waugh: "I'd throw it away."

Mary Lou Hughes: "Take it dancing."

Ed Herde: "Keep it as a trophy."

Ralph Hicks: "Mash it with my foot."

Kaye Ferguson: "I'd probably eat it."

Jerry Davis: "I'd eat it."

Darlene Stamp: "Put it in a jar."

Phyllis Wray: "Keep it for future use."

## Down Memorial Drive

16 Years Ago—1939

**JULY 7**—The College faculty now has a total of sixty-eight members. Ten have their Ph. D. degrees and most of the others have their master's degree or are working on it at the present time.

This summer the College was given honor rating by the American Association of University Women. It was one of ten similar Colleges in the U. S. to be recognized by this organization.

**JULY 7**—Twenty-seven persons will be in the College's group to the New York World's Fair, August 4 to 15. It was announced this week by Mr. Roy Ferguson who is in charge of the Maryville contingent. The College is sponsoring the tour in conjunction with the teachers' colleges at Kirksville and Warrensburg.

**JULY 21**—A new feature of the 1939-41 catalog is the schedule worked out for the major subjects, whereby each student may find the complete schedule in his major subject worked out for his four years in College. Electives are provided for fitting in the minor.

Also a new feature provided in the catalog has to do with requirements for graduation. This new feature as stated in the catalog as the first requirement, is that "Candidates must satisfy the requirements listed under Human Development for the desired degree."

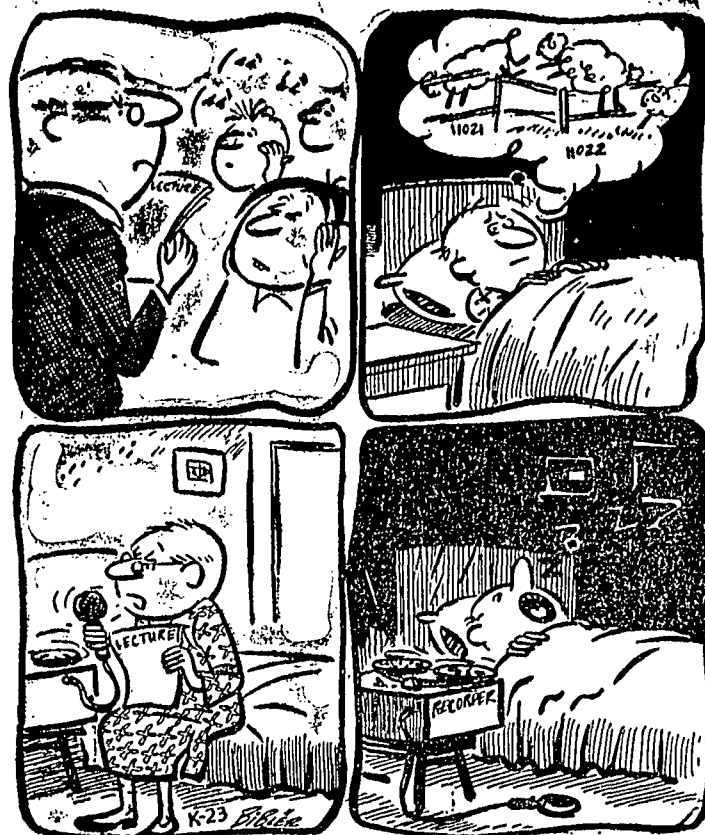

**AUGUST 2**—Mr. C. E. Wells and his library staff began moving the books into the newly completed library building last Saturday. Approximately 30,000 volumes will be moved before school opens in September.

## They're Talking . .

They're talking about the fourth of July and all of the parties, picnics, fireworks and fire water . . . and one guy on the fifth was talking about feeling like a bucketful of something. They're talking very little about studies except the usual what did you get in that test? . . . Sunburn and how to get rid of what you wouldn't have gotten if you hadn't been doing what you did . . . They're talking about Daniel Boone replacing Davy Crockett . . . They're talking about finding a little cat at Roadside Park, and it is not the first time either . . . To finish this all off—They're talking about the girl who informed her housemother she was baby sitting at a certain place, and then received a phone call from said party, looking for a baby sitter.

## LITTLE MAN ON CAMPUS

By Dick Bisher

## State College Alumni

Maryville alumnae of the Sigma Sigma Sorority held their annual summer picnic last Wednesday evening at the home of Miss Nell Hudson, former College registrar and sponsor of the sorority.

Out-of-town alumnae returning for the meeting were Miss Pauline Walker, Burlington Junction; Miss Hettie Mae Woodward, Cincinnati, Ohio; Mrs. Robert Ricklefs, Lincoln Park, Michigan; and Miss Yvonne Yeater, Albany.

Mrs. Joyce Marie Smith White, 1951 graduate of the College, recently received her master of arts degree from the University of Iowa. Mrs. White is the daughter of Mr. and Mrs. Walter Smith, Maryville.

After graduation from here, Mrs. White studied at the University of Tucuman, Tucuman, Argentina.

Mrs. White taught at Maryville high school after returning from Argentina.

Charlene Welsh who was graduated with the class of 1952 and is now teaching at Richmond recently had the work of her students accepted for the scholastic exhibit in Kansas City.

Two students received keys which are given to those who have outstanding art ability. One student's work was selected to be sent to the National Scholastic exhibit in Pittsburg, Pennsylvania.

Among alumni of Northwest Missouri State who are attending the University of Arkansas, Fayetteville, this summer are William Sherman, George Coulter, Morris Wilson, and Pat Zuchowski. All are working toward M. A. degrees.

## Many Foreign Countries Offer Teaching Positions This Year

(Continued from Page One) should be addressed to the Office of Education, U. S. Department of Health, Education, and Welfare, Washington 25, D. C., attention of the Teacher Programs Branch, Division of International Education. The deadline for receipt of applications by the Office of Education is October 15, 1955.

To qualify for a foreign teaching position under this program one must have United States citizenship, a bachelor's degree, and a minimum of three years' successful teaching experience.

## Mr. Whitney Expects 100 Voices in Chorus

One hundred voices for the College Chorus is the goal for next year, according to Mr. Gilbert Whitney, director of the Tower Chorus.

Nearly seventy-five students have indicated they would participate in the chorus next year. With the incoming freshmen to supplement the number of upperclassmen interested, a total of one hundred members is feasible. Plans are for two groups: the College Chorus and a selected group from the Chorus which will make up the Tower Chorus.

## THE COLLEGE OATH

"We will never bring disgrace to this, our College, by any act of cowardice or dishonesty. We will fight for the ideals and sacred things of the College. We will revere and obey the College laws and do our best to incite a like respect and reverence in others. We will transmit this College to those who come after us, greater, better, and more beautiful than it was transmitted to us."

WHAT WILL THIS YEAR'S RECORD BE ?

## Around the Campus Now . . .

Dr. Harold A. Mulford, of the social science department, will speak in St. Joseph, July 21, at a meeting sponsored by the National Conference of Christians and Jews, Inc.

This organization is cooperating with the Extension Service of the University of Missouri in planning an intercultural education program in rural Missouri, the purpose of which is to improve understanding and cooperation among persons of different racial and religious backgrounds.

Specialists are being brought to Missouri to work with the State Extension Staff on this program and a number of educational materials are being provided to Extension workers.

For this work, the state of Missouri has been divided into nine districts, and the July 21 meeting will involve just the workers in this district. Dr. Mulford's topic will be concerned with the areas of tension which handicap social relations in Missouri, especially racial and religious tensions.

The Gilbert A. Whitneys had a busy July 4th weekend. In addition to helping the Donald Richmonds move to Jamesport, they attended the centennial celebration at Mt. Ayr, Iowa, where Mr. Richmond's parents live.

"It was the first time I ever saw an original Boston Tea Party chest," reports Mr. Whitney.

After the famous tea party was over and the chests of tea were in the water of the Boston harbor, some of the citizens of Boston recovered the chests and used them for storage. One pioneer coming westward across the Allegheny Mountains brought with him one of the chests, and last weekend, it was displayed by one of his descendants in Mt. Ayr.

Mrs. Faye Sherman, secretary to the Dean of the Faculty, went to Jackson, Michigan, June 11, to attend the wedding of her son, William P. Sherman, to Miss Joan Maloney.

The bride is a teacher in English in the schools of Roseville, Michigan, where Mr. Sherman is the

coach and instructor in mathematics.

Morris Wilson, class of '51, and a classmate of William's, was best man at the wedding. Mr. Wilson also teaches in Roseville.

Miss Olive DeLuce, chairman of the art department, left New York by plane on June 20 to fly to Paris where she will spend the summer working on art projects sponsored by Wayne University.

Dr. Irene Mueller of the biology department is spending her summer vacation with relatives in Central City, Nebraska. She recently returned from a trip in the East where she visited New York City, Philadelphia, and Connecticut. According to Dr. Mueller, her flying time from Omaha to New York City was only five hours.

The main lounge of Residence Hall was filled with strains of bagpipe music last Wednesday evening. The music came from records of a Scottish bagpipe band, listened to by the girls of the dormitory while Jo Ann Noble, a summer school student from Agency, showed colored slides of Scotland.

Jo Ann told of some of her many thrills and experiences which she had while visiting ten Scottish families last summer as part of a trip sponsored by the National 4-H organization.

Selected from a wide field of entries, Jo Ann and other American 4-H members spent several months in Europe as "ambassadors of understanding" between the U. S. and the nations that were visited.

The girls at the dormitory were fascinated by descriptions of the colorful customs, the folk-ways as well as the modern aspects, of Scotland as retold by Jo Ann.

"Donald Richmond, of the business department, is assuming the superintendency at Jamesport this fall, and during the July 4th weekend he and his family moved to their new home. Eleven schools from the surrounding area will be sending their pupils to the Jamesport schools next year.

### Diane Robbins Wins Table Setting Contest

Miss Diane Robbins was judged a winner in the First Annual Creative Lenox Table Setting Contest in which she displayed her selection of china, silver, glass, and linen. Twenty-five girls from NWMSC entered the contest which was open to both college and high-school students.

Prizes were awarded to first, second, and third place, the next

ten best entries, and a prize of two five-piece place settings each to the next twenty-five best entries. Miss Robbins' entry was selected as one of the group of twenty-five, and she will receive two five-piece place settings of Lenox china in the pattern she chose for her prize winning table setting.

As Miss Robbins' instructor, Dr. June Cozine of the home economics department will receive a Lenox bud vase.

Patronize Missourian Advertisers

## Six in One Family Are State Alumni

Mr. and Mrs. Radley Brown of Jameson have ample reason to be quite familiar with the campus at the College. During the past twenty-four years they have seen six of their children and one grandchild graduated from here.

Voris Brown, who will be superintendent of schools at Cainsville next year, received his B. S. degree from here in 1931; later he received his M. A. from Iowa State.

Voris's daughter, Mrs. Joyce Brown Smith, received a B. S. in Education degree from the College just this spring, and she will teach music in the Savannah school system this fall.

Miss Imo C. Brown, teacher in the public schools at Boise, Idaho, received her B. S. from the College in 1935 and later her M. A. from the University of Colorado at Boulder.

Miss Genevieve Brown received her B. S. from here in 1937 and will receive her M. A. this summer from Colorado University. She teaches kindergarten at the Humboldt School in St. Joseph.

Mrs. Eva Brown Lloyd, Maryville, received her B. S. from here in 1941 and later received her M. A. from the University of Kansas City. She taught English at Lafayette High School in St. Joseph prior to her marriage to Clarence Lloyd.

Gilbert Brown received his B. S. from the College in 1946 and later his M. A. from the University of Iowa. He is a former principal at Eugene Field School in Maryville. He is now the elementary supervisor of the Moberly Public Schools.

Donald Brown, Hickman Mills, received his B. S. from here in 1947 and later his M. A. from Greeley, Colorado. He works for the Board of Education Office in Kansas City and teaches adult classes in the Junior College there.

## Hall Girls Plan For Skit Contest

"A Party" is the topic of conversation at Residence Hall now. The girls living there have decided to have a party, July 18. Each floor of the dorm will be represented by a skit given by the girls living on that floor. The skits will be judged, and the losers will have to give another party later for the senior girls living in the hall. Last summer, they had a similar party, and it proved quite successful.

The girls living on first floor have selected committees for the party. These committees are the following: skit committee—Georgia Walker, Mary Rose, Velda Walker, and Marilyn Henry; refreshment committee—Marjorie Golightly and Theola Carlson; and helpers—Mavis Green and Darlene Graham.

Girls on second floor also have selected committees. They are the following: skit committee—Molly Koffman, Wanda Dugger, Elizabeth Wilhem, and Eleanor Garside; refreshment committee—Norma Granteer and Marjorie Bagley.

## Broken Wire Causes Last-Minute Change In Assembly Program

Can one small wire cause a change in an assembly program? Yes, it most certainly can when that wire happens to be a part of the organ in the auditorium and when that small wire just happens to break on the night before an assembly in which the organ is to be played.

The faculty of the Division of Music was thrown into a dilemma recently when just such a mishap occurred.

On Tuesday evening, before the scheduled music faculty assembly, Mr. Gerhard Krapf was rehearsing his selection on the organ; at that time it was working perfectly. He then stopped for about an hour to allow Mr. Donald Sandford to rehearse his viola selection, and when he returned he found that the organ would not play. This resulted in the cancellation of about a third of the assembly program.

Members of the music staff were able to prepare additional numbers however and present a pro-

gram without the use of the organ.

In opening the assembly program, Mr. Donald Sandford, violinist, and Mary Jane Sandford, pianist, presented a "Sonata in G minor" by Henry Purcell. This was followed by Mr. Gerhard Krapf's piano selection, "Impromptu in A-flat major," Opus. 90, No. 4, by Franz Schubert.

The third selection on the program was Anton Rubenstein's "Sonata for Piano and Viola in F minor" presented by Mr. and Mrs. Sandford.

The assembly was concluded by Mr. Gilbert Whitney who sang "Where e'er You Walk," Handel; "The Sally Gardens," Irish folk song arranged by Britten; "If you are after a little amusement," from Mozart's Marriage of Figaro; and "The Wreck of 'Julie Plante,'" by O'Hara. Mr. Whitney was accompanied by Mr. Krapf.

## A. C. E. Publishes Creative Art Booklet

"Art for Children's Growing" is the latest general service publication of the Association for Childhood Education International. Teachers, parents, church school, play school, and recreation directors concerned with helping children expand their creative powers to the maximum will find thought-provoking, helpful material in this bulletin.

From start to finish the bulletin will help adults understand the developmental characteristics of children's art and find ways of encouraging growth in children's expression in the visual arts.

Outstanding art educators such as Manuel Barkan, Ohio State University, Columbus; Daniel Mendelowitz, Stanford University, California; and Maud Ellsworth, University of Kansas, Lawrence, are among the authors who discuss the value of the arts, how children's artistic abilities develop, the climate for expression, encouraging experimentation, use of the art consultant, and evaluation of children's growth.

Order from the Association for Childhood Education International, 1200 Fifteenth St. N. W., Washington 5, D. C.

## Alpha Sigs, Tri Sigs Plan Summer Picnics

The Phi Phi chapter of the Alpha Sigma Alpha sorority will hold its annual summer picnic, Saturday, July 23, at 4:30 p. m. at the F. M. Townsend home. Mrs. Townsend is a patroness of the sorority.

All alumnae and actives are invited to attend. The registration fee is \$1.50. Send reservations to Carol Bressler, 529 W. Third Street, Maryville.

Sunday, July 17, will be the big day in the Sigma Sigma Sigma sorority activities for the summer. On that day at high noon members and alumnae of the sorority will gather at Roadside Park, just north of Maryville, to hold their annual summer picnic.

According to Dona Walker, who is in charge of the affair, reservations should be sent to her immediately at 215 W. Seventh Street, in Maryville. All members and alumnae are urged to attend.

## Mrs. Luer Entertains Residence Hall Girls

Girls living at Residence Hall have been enjoying refreshing mid-afternoon social hours given at four o'clock by Mrs. Elizabeth Luer, house mother.

Mrs. Luer began holding these informal gatherings about the middle of June to help acquaint the girls with one another. She has continued them until everyone in the dorm has attended one.

At a recent meeting, Miss Velda Walker told of her trip to Europe. Miss Jo Ann Noble told some highlights of her trip to Scotland at another meeting.

Refreshments of cakes, cookies, candy, coffee, and lemonade were served.

## Construction of New Seats Begins at Memorial Stadium

As the approaching date of the NWMSC Golden Anniversary nears, the College is constructing new steel seats on the east side of Memorial Stadium. These new seats will accommodate 2,100 people and make a capacity of 5,600 seats for the events in the future.

## Cardinals, Athletics Divide Attention of Summer Students

Baseball fans in Missouri now have two major league teams in which they can show their enthusiasm. Before, the St. Louis Cardinals enjoyed the honors for Missouri's only major league team. Now that Kansas City has acquired the Athletics from Philadelphia, baseball enthusiasm here in Maryville and on this campus has become divided between the Cardinals and the Athletics.

These two teams are not in competition between themselves since the Cards are in the National league and the A's are in the American league, but their records are comparable. The A's are currently on their hottest winning streak of the season.

As of July 3 the Cards have won 34 games while losing 41. They are in sixth place in the league, 79½ games out of first place. The Athletics on the other hand have won 34 games while losing 42 and are also in sixth place in their league, 17 games out of first place.

These two clubs are almost even in every department. The Cards have three men in the top ten baseball players in hitting in the National league. Wally Moon and Bill Virdon are leading the Cards in hitting with .314 apiece. Stan "The Man" Musial is close behind, hitting .307. Musial is leading the Cards in home runs with 16, and runs batted in with 59.

In contrast, the Athletics have two men in the top ten. They are Vic Power, who is hitting .303, and Jim Finigan, hitting .238. Gus Zernial is leading the A's in home runs with 17.

The hurlers also have about the same records. For the Cardinals, Luis Arroyo is the only one who has a lookable record at all. His pitching efforts have given him a 9-3 record up to date. Luis has had some tough luck, but he is a great rookie, and should prove himself this season. Harvey Had-dix and Brooks Lawrence, the two main winners of the 1954 season, have been disappointing so far this year. The Cards are depending on the rookies this season for hurlers. Mel Wright and Larry Jackson have looked impressive so far as relief pitchers, and sometimes starters.

Alex Kellner, Art Diltmar,

Cloyd Boyer, and little Bobby Shantz have had the pitching chores for the A's, and Tom Gorman has been superb in relief. The starters have had a little rough going, but now they are starting to click.

The Athletics have two sets of brothers at the present time playing for them. They are Bill and Bobby Shantz and Cletus and Cloyd Boyer. Cletus is the newly acquired bonus player for the A's.

Both teams were scheduled to be well represented at Milwaukee yesterday in the All-Star game. "Red" Schoendienst was to be the only starter for the Cards with some of his teammates getting to play in the later stages of the game.

Stan Musial led in the balloting for some time, but Ted Kluszewski, of the Redlegs, finally won out for the starting berth at 1st base. Kansas

City also had one man on the starting team. He was Jim Finigan. Big Gus Zernial was beaten out by the great Ted Williams of the Sox for the starting position in left field. Vic Power was also to see action in the game.

As the season nears the halfway mark, no matter who your favorite team is, let's get out and support them.

## "Circle Four" Is Popular at Dance

"Circle four" is fast becoming a common phrase on the Campus as students, faculty and guests enjoy open air square dancing on the tennis courts. Thursday evening, July 7, was the second of these gay whirling all school events.

Mercury and the spirit of the group were both high, but cool soft drinks were welcomed at intermission prepared by Corky Elliott and the Snack Bar staff.

As the dancers returned they enjoyed promenading to calls by Gloria June Jamison of King City, Donna Thompson of Maryville, and Claude McKee of Maryville.

Miss Doris Hysler and Mr. Ryland Milner with the help of Mr. F. B. Houghton and Dr. Denzil Cooper again did a ROUND up, job for a SQUARE dance.

## College Installs New Seats For Anniversary Celebration

Another improvement has been added to the College this summer with the installation of new stadium seats. These new seats are on the east side of the College athletic field. Work has been in operation by workmen of the Carson Manufacturing Company.

The stands are being set up to accommodate the expected crowd at the October 28-29 NWMSC Golden Anniversary celebration. The seating capacity will be increased by 2,100 people, and this included with the stadium seats will seat a total of 5,600. The new stands are a moveable steel frame structure similar to the ones erected at the Beal Park baseball field.

We also hope that these new seats, along with the stadium seats, will be filled for the coming football games in the fall.

## Random Shots . . .

Square dance was enjoyed by all last Thursday . . . Hope we have another one before school is out . . . The ones who are making these dances possible should be commended for their fine job of making a success of this social event here on the campus.

Tennis court chatter is up quite a bit . . . Dr. Frank Grube and Walt Hopkins have a battle on now . . . They are trying to get Dr. Leon Miller down for a game before long.

Elaine Bullock had her 4½ month child at the swimming pool the other day . . . She wanted to teach him how to swim, but he didn't agree.

"Chuck" Heinrich is having a fit on Tuesdays and Thursdays . . . Seems not enough girls from the Dorm will come swimming . . . He says that if this situation doesn't improve, he will have to import some.

Those who missed the July 4th doubleheader in Kansas City missed a lot of baseball according to Ron Bradley . . . He said there were long balls hit, fine fielding, good pitching, and some red hot arguments. . . . L. D. Young made the trip with him. The A's are having a winning streak now; so you should take time off and see a good game.

Received word from Dr. Irene Mueller that she attended the Yankees and Athletics game in New York recently.

Wondering what Ellen Hedstrom is doing now that her afternoon card game at the Den has broken up since all of the card sharks are home for the summer. Any prospects in the crowd?

Mrs. Kinman's Physical Education 50 class seems to have gone batty . . . Someone hit a large bat with a soccer ball while playing games in the girls' gym last week. The bat was quickly exterminated by the janitor and play was resumed. In case anyone has been wondering about the students outside playing elementary games, this class is responsible . . . Some will probably agree with the class being batty after seeing the class in operation with hide-and-go-seek, etc.

Heard that Merle Sorenson, sophomore from Kansas City, won't be here next Fall . . . Seems as though he is going to Junior College in K. C., but he intends coming back here in 1956 . . . Merle was a member of the Bearcats' basketball team last winter.

Guys and gals are looking forward to Thursday evening, July 14, when light hearts and heavy feet will be beating out the tune of another hoe-down.
